VACUUM-POWER-HANDY VPH

Flexible and powerful hand operated laying device for dense products, such as granite or high quality concrete elements up to 150 kg weight.

Consisting of the following components:

➤ Vacuum pump unit with manometer and suction force indicator, battery charging indicator and on/off switch. Complete unit detachable, can also be mounted on other devices.

Special features:

Special seal, consisting of 2 components for optimised sealing. Even when the suction plate is sitting on sharp edges for a long time, no permanent marks are left in the seal. Therefore no "foldable rests" are necessary to save guard the seal.

➤ Highly wear-resistant seal!

➤ Powered by rechargeable battery 12 V. Special energy saving automatic allows a full day of laying operation without the need of recharging.

➤ Handle for 2 men operation, handles height and width adjustable to accommodate with different laying tasks.

➤ With Suction plate

➤ Galvanised

➤ The seal can be exchanged without glue and any tool within 1 minute.

➤ Additionally equipped with lifting eyelet for crane hook (only allowed to work near the ground!).
